

KIA WONDERWATERS SHOPPING CENTRE

The initial refurbishment, of the well-known Wonderwaters Shopping Centre, facing Lavender Road in Annlin, will be the upgrade of the Kia Active Reception which is currently situated on the lower ground floor level of the centre. The Kia Active Reception will be moving to the upper level which will improve accessibility and visibility.

Tata Motors customers will be most impressed with its modern professional image and ease of access. Vehicles will be booked in on the upper level and then moved to the recently revamped workshop which is still situated on the lower level. Upgrading the workshop will allow Kia to add 25-35% on their current service capacity.

The new Kia reception area and workshop will open for trade beginning December 2010.
