

INTERCARE SUB-ACUTE AND DAY CARE HOSPITAL AT HAZELDEAN

The Hazeldean Office Park, situated in Silverlakes Road, Hazeldean, will soon have another building under construction. The Intercare Sub-Acute and Day Care Hospital will be developed by Abland. The owners of the park, Abland and Sable Holdings are delighted that another building will be erected in the park soon. This will assist with Abland's further vision to complete some of the parks environmental issues. The owners have made substantial progress in creating a wet-land on in the park that will positively influence the water running through the Hazeldean area and eventually into the Pienaars River.

The new building will create the stimulus for more tenants and purchasers to come to Hazeldean Office Park. The ultimate vision for the park is that smaller investors will fill the park, thereby creating an economic hub which will in turn provide the feet to the retail and residential developments in Hazeldean.
