

THE INDEPENDENT ELECTORAL COMMISSION AT RIVERSIDE

From Sept 2010, the Independent Electoral Commission has started operating from its new address in Riverside office park.

The owners are very proud to present its first top quality building in this magnificent office park. As preparations for the upcoming municipal elections must commence, the IEC's deadline for occupation in Sept 2010 forced the owners to ensure that nothing could go wrong with delivery and together with their professional team, the facility was completed on time.

The uniqueness of the IEC as a tenant is that it is synonymous with South Africa's short democratic history. Abland, Lourens Group, Manaka Investments and the Moolman Group wish to thank our tenant, the professionals, the contractor and funders of this great project. The next building in Riverside Office Park is due for completion by April 2011.
