

## Ballyoaks Office Park

11 June 2008

**With the success of Ballywoods Office Park, the partners have launched Ballyoaks Office Park.**

The total park can accommodate 17,000m<sup>2</sup> of the rentable space. The first building of 4,000m<sup>2</sup> commenced construction and will be ready for occupation in December 2008.

Boogertman and partners have designed a modern contemporary park, yet still fitting into the tranquil surroundings and keeping of the existing oak trees. The layouts of the office park have been smartly designed giving tenant individuality to their space.

The space is flexible pockets starting from 300m<sup>2</sup> to 600m<sup>2</sup> accommodating the smaller tenants, alternatively a single floor of 1, 200m<sup>2</sup> or an exciting opportunity for an iconic building for a single user.
