

Standard Bank Phase 3

The new Standard Bank Constantia Kloof office park phase 3 consists of a further 15 000m² of (GRA) gross rentable area in addition to the existing 24 000m² making the facility almost 40 000m². This phase of the development is the penultimate which will finally result in 55 000m² campus dedicated to Standard Bank.

Earthworks and piling has commenced and the main contractor will be on site during March 2008 for the completion of the contract by September 2009.

The facility is a tailor made corporate office to meet the requirement of Standard Bank corporate offices and has been designed to take advantage of the latest green building development technology to reduce the carbon footprint and to minimize the energy usage.
