

WELCOME TO THE BRAND NEW SPARKLING AUTO CARE CENTRE.

Auto Care Centres are becoming more prominent additions to tenant mixes in retail developments. It is convenient, fast and economical. Major research from early as 1992 has shown the face lift of car wash standards that it previously was in the past. Sparkling Auto Care Centres offer minor to major car valets, paint chip repairs, smash and grab and window tinting, dent repairs, even odour removals and much much more. This all exclusive service has been created to provide the car owner a peace of mind without taking the quality out of it.

With a team of researchers, Corne Gustafson and his team searched for the right technologies to improve the car wash standards of South Africa, his team has provided an “all under one roof” services without compromising the quality of a vehicle and giving it repairs on the external shell.

With reasonable prices and a great record history, we look forward to Sparkling Auto Care Centre spoiling the Hazeldean and the rest of Pretoria East residents.

The proposed new Sparkling Auto Care Centre will be a stand alone alongside KFC at Hazeldean Square promising to live up to being convenient, fast and economical . Building on the already very successful model at the Gateway Centre in Centurion, this new addition will prove to be a much needed service for the community and ensuring that Hazeldean Square has the better offering.
